BORIS II, #3

17 Mar 98

Three Games End!

Congratulations go out to Phil Crawford, Chuck Hanna, and Ron Fisher for their wins in "The Hunt", 1836, and DUNE respectively. Chuck's quick wit was especially impressive. Special thanks to Mark Fresh for an excellent job as guest GM. A new "Hunt" has begun, but we'll be accepting suggestions for replacement games for the others. So for another DUNE II-player?, see below! and either an 1836 or SILVERTON are the main candidates. Get your drafts in early.

STANDBY ALERT: This was a bad issue for N98s. I also didn't have the luxury of waiting very long for staggered orders, so there are plenty of standing positions available.

"Boris II": France

CIRCUS MAXIMUS: Pippin Maximus

AGE OF RENAISSANCE "Rite": Genoa

ADVANCED CIV: Amysia & Illyria

MAGIC REALM: Old Bar/DC, Xyla

SETTLERS OF CATAAN: Osborn's position

STELLAR CONQUEST, "William T. Riker": *posible e-mail player*

Interested parties should send in orders for each position they are interested in. If the present player again fails to submit orders on time, a random drawing will be held.

BORIS'S BULLETIN BOARD

THOUGHT FOR THE MONTH: OK, what if that evil little asteroid was actually going to strike Earth on 26 Oct 2009? What would that do to my retirement portfolio?

I typed the registration fee for World DnDCon last time. It's not a ridiculously low \$1, but a "still cheap" \$15. Rooms are cheap at \$15/night with a roomie. Hmmm, is it a good deal? His Nar might want to make the trip to meet Ron Fisher (who will be in attendance).

The latest *Arden Hill General* has a solitaire variant for STELLAR CONQUEST and a consolidation of the DUNE expansion sets and variants. Consider art for it too.

Debbie Osborn's work address can be found on p. 39. She'll be moving soon into a manufactured home, so hopefully that will clear up the postal problem.

By the time you get this, the 904 area code will be invalid for this area, and 830 will be required. Update your phone books if you haven't already done so.

BORIS & BUDOS

This month's Madeline Bolden Press Excellence Award (and free beer) goes to an issue of the "Boris II" WEB press.

This month's Ma Nar Super-Shaky Book is listed at Debbie Osborn for the usual suite of N98s.

1997D

MEREWOOD: Austria has shuffled off into the dustbin of History while her cousin Germany hangs on by the slenderest of margins. The Russo-Turkish alliance seems to be binding up with the trading of CON for RUM to allow the Tsar's BIA fleet into the Med and the battleline against the Italian sea monster. Italy's growth spurt has been throttled by the Turkish fleets and an obligation, we presume, to her French ally who is evidently taking the season off to enjoy the particularly fine vintage. England, meanwhile, can make no progress against the beleaguered French—which doesn't speak well for the caliber of English troops, what?

WORMWOOD: The inflammatory statement recently issued by the Austrian Foreign Office have served to bring the long simmering crisis to a head. Verification that "The Wormtongue" is indeed the sixth son of a sixth son of a sixth son in a line of sixth sons leading back to the sixty-sixth son of an Ottoman despot has not reassured the masses on this, the eve of the 26th century and end of the millennium. It remains to be seen which way the alliances will fall in frantic preparation for war, but, rest assured, all governments will soon come in the forefront. The French want to avenge 1870 and recapture Alsace-Lorraine. The British see a Napoleon in every new French leader and get nervous if any nation has more than a dozen warships. The Germans crave unification of all German-speaking peoples and seems to the high seas. The Turks dream of their glory days, conquest of North Africa, siege of Vienna, the Black Sea a Turkish lake. The Russians want their warm water port on the Black, and resurgence on the Swedes and French, their most recent invaders. The Italians, of course, want nothing less than a new Roman empire larger than the original. Should make for a fun few years.

EMBASSY HEAT

Washington: The State Department has issued an advisory to all Americans abroad to avoid travel to Europe for the next three months because of the high probability of a general war breaking out. Americans disregarding this warning do so at their own risk.

BORN WORLD PRESS REVIEW

MB (Men in Black) has issued a warning for all agents to be on the lookout for aliens arriving believing they are on holiday on Earth. An unscrupulous travel agency run by a certain Wormtongue has tried to bypass all protocols and dump thousands of unsuspecting aliens on Earth. The Hunt

*Crawdlesize Wins 4th Hunt!!
5th Hunt Begins!*

THE HUNT is a word game inspired by James Lipton's book, "An Exaltation of Licks", where we propose a noun and the players are asked to propose a collective noun to fit, such as "flock" for "sheep" or "pride" for "lions". Boris and Ma Nar will mark each entry for each word and the best score will be the winner. Each word is a possible 1 point, but the point will be split if either more than one player suggests the word or two or more words are marked equally. The first player to score 10 points wins six free issues of this rag. THE HUNT is run in Chases or rounds. We report the fourth Chase of the 4th Hunt & begin the 1st Chase of the 5th Hunt. Goodfellow, to the Hunt!

CHASE 4:

- | | |
|----------------|---|
| 1. bridges | berry, crossing, span3B1 |
| 2. dams | barabaz@, blockage@, dwarf, flood21 |
| 3. canals | artery*1, canal, lock, mass, network@, stream |
| 4. boats | beard, berry, bottle1, fish, launch@, raft |
| 5. treaties | banco*1, stack, task, trans21 |
| 6. skyscrapers | boom@, skyline@, thrust@, tower, towering, upthrust |
| 7. movements | dedicated2*1, reaction, salute@, suggest, promptly |
| 8. railroads | connector*1, manifest, ranger@, range, the, track |
| 9. highways | divided, hays, mass@, path@, parking lot@, pass, stretch@ |
| 10. soldiers | assault@, bucket, cow, fraco*1, hill, off |

Legend: B = Boris's suggestion, L = Lipton's suggestion, N = Ma Nar's suggestion, # = multiple entries, * = sole winner, @ = tied for 1st

Chase 4 Scores: Crawdlesize 0.55, Farrow 2.55, Nar 1.00, Zimmerman 1.00, Fisher 1.00.

Final Score: Crawdlesize 11.81, Farrow 11.00, Nar 7.83, Fisher 4.91, Anderson 0.55, Zimmerman 2.00, Montan 0.00.

5TH, CHASE 1: (Theme: Peonage)

- | | | | | |
|-----------|-------------|-----------|------------|-----------|
| 1. Enigma | 2. Kings | 3. Prison | 4. Dulce | 5. Barrow |
| 6. Fable | 7. Marquise | 8. Counts | 9. Viceroy | 10. Lords |

We only received one response to Mr Zimmerman's suggestion, and that was from Mr Nar who liked the idea but didn't think he'd play because he had a hard enough time with the regular Hunt. Which brings up the question, who'd play? Tougher still, how do I set up the problem? For now, we'll just run another regular Hunt.
